

iVENT ECO

High quality and innovative designed vent. Built in bubble levels ensure precise vertical positioning on install. Color matched to most roofing materials. Condensation drain system protects against the accumulation of moisture in the ventilation system, prevents freezing or damage. Suitable for all ventilation systems in diameter 5" and 6"

		
Product code:	EL-5-__-__	EL-6-__-__
Diameter:	5"	6"
Height:	16"	16"
Weight:	4 lbs	4 lbs
Regulation:	5-45 degrees	
Material:	high quality polypropylene, UV resistant	
Insulation:	no insulation, built in condensation drain system	
Sealant (flat base PI)	Butyl tape is sealant able to form an instant and permanent bond to any clean and dry surface, but it remains flexible even after withstanding fluctuating conditions. This sealant is also extremely weather-resistant because it self-heals, which means bolts and fasteners won't hinder its sealing abilities. That makes it particularly valuable for roofing applications as installation, and even reinstallation down the line, will not compromise its durability.	
Set contains:	iVENT eco vertical vent, exhaust pipe, base, screws, installation instruction
