

IVENT ECO PG

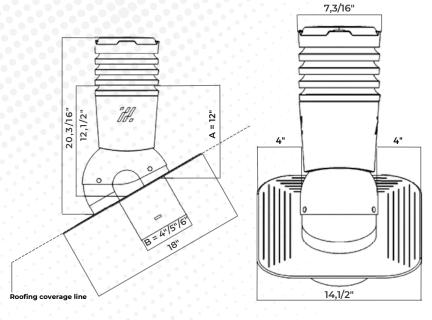

For Bathroom, Kitchen or Dryer exhaust

Technical data sheet and performance declaration.

iVent ECO a desirable choice for both residential and commercial applications where effective ventilation is required in kitchens, bathrooms or drayer. The iVent ECO exhaust vent offers a combination of functionality, durability and easy installation. The shape of the vent body is designed to support airflow and ensure effective ventilation. Equipped with a condensate drainage system, it prevents the accumulation of moisture in the duct and structure. Built-in spirit levels ensure easy vertical position and adjustment during installation. Use with new or existing 4", 5" or 6" duck systems.

TECHNICAL DATA

MATERIAL	UV stable pure Polypropylene				
HEIGHT	20"				
VENT INTAKE PIPE	4", 5", 6"				
WEIGHT	3,42 lb				
ROOF TYPE INSTALLATION	SHINGLE, SLATE AND SHAKE INSTALLATION				
TYPE	IVENT ECO				
ROOF PITCH REGULATION	1:12 TO 12:12 PITCH				
PRODUCER	ROOFIVENT LLC				
SKU	EL-X-XX-PG				
TECHNICAL AND PERFORMENCE ASSIGMENST UNIT	ITB				

- Build in condensation drainage system
- Build in two spirit levels

LIFETIME GUARANTEE Roofivent LLC lifetime guarantee on functionality. Guarantee doesn't include replacement due to destructive storms.

The performance of the above product is in accordance with the set of declared performance characteristics. This declaration of performance is issued on the basis of tests and technical assessment by ITB. Under the sole responsibility of the manufacturer - ROOFIVENT LLC.

DATA TABLE SHEET

CHARACTERISTICS	PERFORMANCE PROPERTIES	ASSESSMENTS METHODS		
Dimensions : • Height (A) • Inside diameter (B)	Attachement -A Dimensions	Measurement with measuring instrument with adequate accuracy		
Vicat softening temperature of PP products: Fahrenheit	>167	ISO 306:2014 (method B50)		
Changes as result of heating Polypropylene product	No cracks, delamination and sign of material fission or bubbles greater than 20% of the wall thickness: No part of the seam line exhibits an opening greater than 20% of the wall thickness	ISO 580:2006 method A: dryer Temperature: 300 F Time of heating: 30 min		
Impact strength of Polyprophylene product	No damages	Drop method according to C-89206- 2005 Temperature: 32 F Conditioning time: 30 min Drop height: 7 feet		
Aerodynamic characteristics	Attachment - B			
Suction action	Attachment - B			
Durability of Polypropylene products - resistance to aging in artificial conditions, with irradiation energy not lower than 2.6 GJ/sq. feet	esistance to aging in artificial ditions, with irradiation energy Delta E < 6			

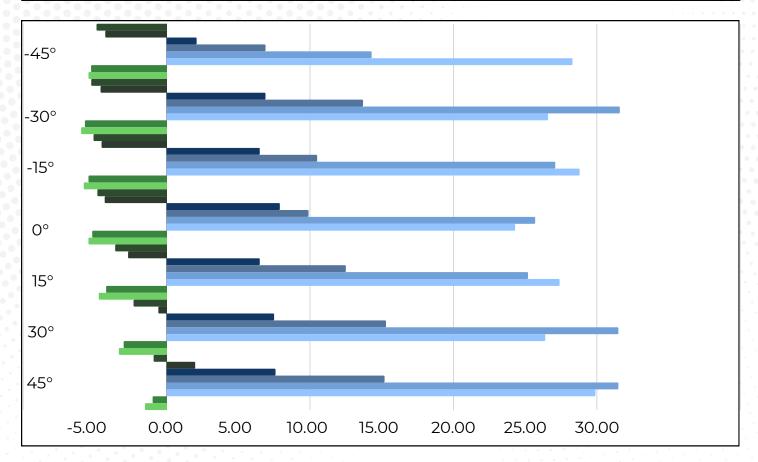

Package includes: IVENT ECO vent, base for shingle, slate and shake installation, vent inlet pipe, set of screws, installation instructions

Package includes: IVENT ECO vent, base for shingle, slate and shake installation, vent inlet pipe, set of screws, installation instructions

The **iVent ECO** vent is a high-quality ventilation solution that combines functionality, durability, and ease of installation. Designed with a focus on maximizing air flow efficiency, this vent is equipped with innovative features to ensure optimal ventilation performance. From its condensation drain system to its built-in bubble levels, the Ivent ECO vent is a reliable choice for maintaining a dry and well-ventilated environment in any weather all year round. With a variety of colors available to suit different roof styles and aesthetics, this vent is versatile and can be seamlessly integrated into various settings. Whether for residential or commercial use, the Ivent ECO vent is ideal for kitchens and bathrooms where efficient vertical ventilation is essential.

Key Features:

- Optimal air draft efficiency with the vent body shape designed for maximum ventilation performance.
- Condensation drain system prevents moisture and frost build-up, ensuring a dry environment year-round.
- Built-in bubble levels for precise vertical positioning during installation, saving time and money by ensuring correct placement.
- Available in a variety of colors to complement different roof styles and aesthetics.
- Compatible with existing 4", 5", or 6" systems, offering versatility in installation options.
- Suitable for both residential and commercial applications, making it an excellent choice for kitchens and bathrooms requiring efficient vertical ventilation.

Benefits:

- Ensures effective extraction of used air from kitchen and bathroom areas.
- Thanks to its aerodynamic properties, it does not require a backdraft dumper.
- Protects the ventilation system and the house structure from condensation.
- Facilitates accurate and easy installation
- Offers versatility in installation options

The Ivent ECO Vent is the perfect choice for those looking for a reliable and efficient ventilation solution that is easy to install and built to last.

Package includes: IVENT ECO vent, base for shingle, slate and shake installation, vent inlet pipe, set of screws, installation instructions
